Subject: Follow Up from District 22-A Full Cabinet Meeting (Central Maryland Lions Clubs Revival)

Hello Fellow Grace Heart Lions;

Hope all your Hearts are doing well. It is hard to believe it is almost one week since we met. It was my honor to have the privilege of your valuable time on a Saturday morning. My deepest apology to some of you who felt it was too long.

All of your honest feedback is really appreciated.

Some felt; too much repetition of IMAGINATION and VISION. Yes, it was. It is one of the effective method of learning. Being immersed, through repetition, and implementation we develop our MASTERY. Display of too much my PASSION may have too imposing and intrusive to some. No; that was not the purpose. Purpose was to discover your passion and be more passionate about what brings you joy to fulfill your life. Please do not die while still your song in you and without singing. Time is a precious commodity.

Too much inappropriate content and topics.

Was the material from the LCI, DG School or from some format? Was it directive from the LCI? Some logos, Lions goal, plan etc. was from LCI website. Others were from the universe/source, life experience and from the Heart. There was no script or format for the presentation. Picture speaks thousand words, music has a special language and touches us, we humans connect to stories very well/had several stories to share. Of Course those tools took up much time.

Let us share if anything new you picked up or reinforced some ideas you already had with others in your club and other club members. Nine club members represented last week.

I will be sending out some Membership information to all the clubs in few days. You may find many ideas to implement for membership satisfaction/development.

I am looking forward to our next "Full cabinet meeting" on November 6th for your participation and you may invite other Lions, non-Lions. We will share our journey.

In the meantime, please keep the fire burning and make a difference that really make the difference.

With much gratitude and love,
DG Bijoy
